

PROTEC

PROTEC B4 26" EXPANDABLE BATON HOLDER

Code: B9

Fabric: 1000D Nylon

Weight: 70g

Colour:

Black

About the B9:

The Protec B9 Arnold Baton Holder is designed to securely carry a compatible long-reach Arnold baton, offering versatile attachment options for professional use. Originally developed for mounted police units, it features a strong steel spring clip for quick attachment to suitable equipment, including horse tack and MOLLE webbing.

Manufactured from tough 1000D nylon reinforced with a 1mm plastic core, the B9 provides a durable, supportive structure. A genuine leather retaining strap with a press-stud fastening helps keep the baton securely in place.

When the steel spring clip is removed, the rear webbing belt loop allows the holder to be attached to compatible duty belts up to 50mm wide.

Features:

- Durable 1000D nylon construction
- 1mm plastic core reinforcement
- Designed for compatible long-reach Arnold batons
- Genuine leather retaining strap with press-stud fastening
- Strong steel spring clip for versatile attachment
- Suitable for attachment to compatible equipment and MOLLE webbing
- Removable spring clip for alternative carrying configurations
- Rear webbing belt loop for duty belt attachment
