

PROTEC

PROTEC DOUBLE HANDCUFF HOLDER POUCH

Code: H7

Fabric: 1000D Nylon

Weight: 120g

Colour:

Black

About the H7:

The Protec H7 Double Handcuff Holder is designed for professionals who need to carry two pairs of rigid handcuffs without taking up additional space on their duty belt. Manufactured from tough 1000D nylon, it provides durable, practical storage for demanding operational environments.

Featuring a front-to-back configuration, the H7 securely holds two pairs of standard rigid handcuffs, with heavy-duty press-stud fastenings to help keep equipment in place while allowing quick access when required.

An integrated front utility pocket provides additional storage for items such as nitrile gloves or a mini first aid kit. The rear 50mm belt loop offers stable attachment and is compatible with duty belts up to 60mm wide.

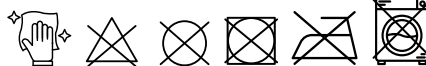

Features:

- Durable 1000D nylon construction
- Holds two pairs of standard rigid handcuffs
- Front-to-back handcuff storage configuration
- Heavy-duty press-stud fastenings for secure retention
- Fast-action access to handcuffs
- Integrated front utility pocket for gloves or small first aid supplies
- Rear 50mm belt loop for stability
- Compatible with duty belts up to 60mm wide
