PROTEC

PROTEC DROP LEG MOLLE PLATFORM THIGH RIG

Code: MODBLEG

Weight: 98g

Material: 1000D Ripstop Nylon

Colour: Black

Size: 27.5 x 25.5cm - Adjustable thigh straps

About: Protec Drop Leg Molle Platform Thigh Rig

The Protec Drop Leg MOLLE Platform Thigh Rig (MODBLEG) is a versatile, lightweight tactical platform designed to provide a stable and accessible mounting solution for MOLLE-compatible equipment. Belt-mounted for enhanced comfort and mobility, it enables users to quickly configure or change their loadout to suit operational requirements.

Manufactured from heavy-duty 1000D Ripstop nylon, the MODBLEG delivers exceptional durability for demanding environments. Fully adjustable, slip-resistant leg straps and a quick-release buckle system provide a secure, comfortable fit throughout extended use.

Ideal for law enforcement, military, security, and outdoor professionals, the platform accommodates a wide range of MOLLE-compatible pouches and accessories, including Taser, baton, and CS spray pouches.

Key Features:

- Lightweight, belt-mounted drop leg platform
- Standard MOLLE webbing for universal compatibility
- Constructed from durable 1000D Ripstop nylon
- Fully adjustable, slip-resistant leg straps for a secure fit
- Quick-release Flexi buckle for rapid fitting and removal
- Enables quick reconfiguration of MOLLE equipment
- Stable platform for essential tactical equipment
- Suitable for police, military, security, and outdoor applications
- Compatible with Taser, baton, CS spray, and other MOLLE pouches
