Weight: 80g

Material: 1000D Ripstop Nylon

Colour: Black ●

Size: 22 x 5.5 x 2.5cm

About: Protec Black Molle Double Dock Strip

The Protec Black MOLLE Double Dock Strip is a durable mounting accessory designed to provide two secure attachment points for Klick Fast®-compatible devices on MOLLE-equipped tactical gear. Ideal for police, security, military, and emergency service professionals, it allows users to carry multiple compatible devices—such as radios, body-worn cameras, or other operational accessories, while maintaining an organised and efficient loadout.

Constructed from heavy-duty 1000D nylon and reinforced with a 1 mm plastic insert, the Double Dock Strip is built to withstand the demands of frontline operational use. Its low-profile design minimises bulk while delivering exceptional strength, and the standard MOLLE/PALS attachment system ensures seamless integration with tactical vests, carriers, belts, and other load-bearing equipment.

Designed for professionals who require flexibility and dependable equipment mounting, the Protec Double Dock Strip offers a practical solution for carrying multiple Klick Fast®-compatible devices in one compact platform.

Key Features:

- Dual Klick Fast® compatible docking points
- Secure mounting for radios, body-worn cameras and compatible accessories
- Manufactured from durable 1000D nylon
- Reinforced with a 1 mm plastic insert for added rigidity
- Standard MOLLE/PALS compatible attachment system
- Low-profile, lightweight design
- Secure integration with tactical vests, belts and load-bearing platforms
- Suitable for police, security, military and emergency service applications

Specifications:
