

PROTEC

PROTEC HI VIS MOLLE MODULAR BATON HOLDER

Code: MODHVB

Weight: 101g

Material: 1000d Ripstop Nylon

Colour: Hi-Vis Yellow ●

About: Protec Hi Vis MOLLE Modular Baton Holder

The Protec MODHVB is a high-visibility modular baton holder designed for police, security and emergency service professionals. Combining enhanced visibility with durable construction, it provides secure baton retention and rapid access in operational environments. Its universal design and MOLLE compatibility make it suitable for a wide range of tactical vests and load-bearing equipment.

Key Features:

- High-visibility design for improved officer safety
- Universal baton holder configuration
- Interchangeable baton retention system
- MOLLE-compatible attachment system (1" loops)
- Cross-compatible with Protec and other MOLLE-equipped gear
- Trusted by UK police forces and security professionals

Materials:

- Manufactured from modern antibacterial materials
- Fire-resistant construction for enhanced operational safety
- Durable design suitable for demanding environments

Compatibility:

Suitable for most expandable baton systems, including:

- ASP batons
- Casco batons
- Camlock batons
- Monadnock batons
- Autolock batons

Mounting System:

- Standard MOLLE webbing attachment
- Utilises industry-standard 1" MOLLE loops
- Compatible with Protec vests and most third-party MOLLE platforms

Operational Benefits:

- Enhanced visibility in low-light and high-risk environments
- Secure baton retention with quick access when required
- Flexible fit across multiple baton brands and models
- Suitable for police, security and emergency service applications

Applications:

- Police officers
- Security personnel
- Emergency services
- Tactical and public order operations
- MOLLE-equipped load-bearing systems

Country of Manufacture:

- Pakistan 

Comodity Code:

- 39232900
