

PROTEC

PROTEC LIGHTWEIGHT BODY CAMERA HARNESS

Code: RD41

Fabric: 1000D Nylon

Weight: 0.16kg (161g)

Colour: Black

About the RD41:
The Protec Lightweight Body Camera Harness provides a secure and adaptable solution for mounting body-worn cameras across a range of professional uniforms.

Its adjustable design provides a comfortable and secure fit, while the single-sided construction allows the camera to be positioned higher on the body for a practical recording position.

Designed for cameras using Klick Fast or compatible docking systems, the harness provides quick and convenient integration with existing equipment.

Features:

- Lightweight and durable design
- 1000D nylon construction
- Single-sided configuration
- Higher camera mounting position
- Fully adjustable for a secure fit
- One size fits all
- Quick and easy camera mounting
- Suitable for Klick Fast and compatible docks
