

PROTEC

PROTEC RD9 UNIVERSAL RADIO HOLDER

CODE: RD9

Fabric: 1000D Nylon

Weight: 90g

Colour:

Black

About the RD9:

The Protec RD9 Universal Radio Holder is designed to provide secure, adaptable carry for a wide range of modern two-way radios. Manufactured from durable 1000D nylon, it is built to withstand the demands of everyday professional use by police officers, security personnel and other operational users.

Elasticated side panels accommodate different radio widths, while the adjustable shock cord retention system helps keep the radio securely in place without obstructing essential buttons on the top or sides of the device.

The RD9 is available with either a belt loop suitable for duty belts up to 50mm (2 inches) wide or an Airwave-compatible Klick Fast radio dock. Both attachment options allow 360-degree rotation, providing flexible positioning and improved comfort, particularly when seated or driving.

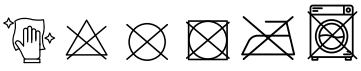

- Durable 1000D nylon construction
- Universal design for compatible modern two-way radios
- Elasticated side panels for an adaptable fit
- Adjustable shock cord retention system
- Designed to maintain access to essential radio buttons
- Secure press-stud fitting
- Available with a 50mm belt loop or Klick Fast radio dock
- 360-degree rotation with either attachment option
