

PROTEC SP1 CS SPRAY BELT POUCH

Code: SP1

Fabric: 1000D Nylon

Weight: 70g

Colour:

Black

About the SP1:

The Protec SP1 CS Spray Belt Pouch is a durable carrying solution designed to securely hold compatible incapacitant spray canisters for professional duty use. Manufactured from tough 1000D ballistic nylon, it offers excellent abrasion resistance for demanding working environments.

Featuring a puncture-resistant lining for an additional layer of protection, the SP1 is designed to help protect the canister and surrounding equipment. A combined press-stud retention strap and hook-and-loop (Velcro) fastening help keep the canister securely in place while allowing convenient access when required.

Designed for attachment to duty belts up to 50mm wide, the SP1 is suitable for compatible canisters measuring up to 35mm in diameter and 123mm in height.

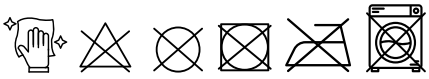

Features:

- Durable 1000D ballistic nylon construction
- Abrasion-resistant design for professional use
- Puncture-resistant lining for additional protection
- Combined press-stud and hook-and-loop retention system
- Designed for secure, accessible canister storage
- Compatible with duty belts up to 50mm (2") wide
- Suitable for police, security and enforcement professionals
