PROTEC

PROTEC CS HOLDER WITH LANYARD

Code: SP3

Fabric: 1000D Nylon

Weight: 80g

Colour:

Black

About the SP3:

The Protec SP3 CS Spray Holder with Lanyard is a durable carrying solution designed to keep compatible spray canisters secure and accessible during professional duty. Manufactured from tough 1000D ballistic nylon, it offers excellent abrasion resistance for demanding working environments.

Featuring a combination of hook-and-loop (Velcro) fastening and a secure press-stud closure, the SP3 helps retain the canister when not in use. An integrated elasticated coiled lanyard provides an additional connection between the holder and canister, helping reduce the risk of accidental loss.

Designed to accommodate compatible spray canisters measuring up to 40mm in diameter and 123mm in height, the SP3 combines practical retention with durable construction.

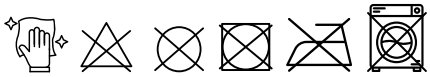
Features:

- Durable 1000D ballistic nylon construction
- Excellent abrasion resistance
- Integrated elasticated coiled lanyard
- Dual-retention system with hook-and-loop and press-stud fastenings
- Designed to help prevent accidental loss of the canister
- Suitable for compatible CS and incapacitant spray canisters

Specifications:

- **Brand:** Protec
- **Model:** SP3
- **Product Type:** CS Spray Holder with Lanyard
- **Material:** 1000D ballistic nylon
- **Retention:** Hook-and-loop fastening and press stud
- **Lanyard:** Elasticated coiled lanyard
- **Maximum Canister Diameter:** 40mm
- **Maximum Canister Height:** 123mm
- **External Dimensions:** Approximately 145 × 58 × 50mm

Washing Instructions:



- Wipe Clean Only
- Do NOT Iron
- Do NOT Bleach
- Do NOT Dry Clean
- Do NOT Tumble Dry
- NOT machine washable

Country of Manufacture:

- Great Britain

Comodity Code:

- 42029291
