Black

About: Protec Taser 7 Covert Mini Harness

The Protec TC26 Taser 7 Covert Mini Harness is designed for the specialist equipment-carrying requirements of UK Taser-armed police forces. Constructed from durable ripstop 1000D nylon, the harness provides a tough and long-lasting equipment-carrying solution.

Klick Fast-compatible shoulder docks allow mounting of compatible body-worn cameras, radios and other accessories. The harness provides dedicated storage for a Taser 7, while the opposite panel accommodates a baton, rigid handcuffs and CS spray for quick and accessible equipment storage.

Lightweight breathable mesh, adjustable straps and 3mm velour padding provide ventilation, comfort and a secure fit. Two 25mm elasticated belt loops help keep the harness securely positioned during use.

Key Features:
